

COMMUNITY COLLEGE STEM SCHOLARSHIP

OPPORTUNITY 2012-2013

Virginia Space Grant Consortium (VSGC) encourages academically talented individuals to pursue studies and careers in science, technology, engineering and math (STEM). The VSGC offers a limited number of scholarship opportunities to students majoring in STEM at any campus in the Virginia Community College System (VCCS). These \$2,000 scholarships are competitive awards based on academic merit for students demonstrating an interest in NASA's missions and STEM related careers. Underrepresented minorities, females and students with disabilities are encouraged to apply.

This is a competitive program and awards are based on student academic merit and potential for a successful career in a STEM field. The VSGC strongly supports students engaged in technical career pathways and preparing to transfer to institutions of higher learning while developing the essential skills for a competitive global workforce.

Sponsor:

The Virginia Space Grant Consortium (VSGC) is a coalition of five universities, the VCCS, NASA, state educational agencies, and other organizations representing diverse aerospace education and research.

The VSGC acts as an umbrella organization, coordinating, and developing aerospace-related high technology educational and research efforts throughout the Commonwealth.

**Applications must received by
March 16, 2012**

Eligibility:

- Must be a U.S. citizen
- Must be currently enrolled full time in the VCCS
- Must have completed at least one semester of coursework (minimum of 12 credit hours)
- Must be majoring in a STEM program of study
- Must have a grade point average of at least 3.0 on a 4.0 scale
- Must be graduating in May 2013 or later

How to Apply:
