Overview of the EMS Intermediate Program

This career studies certificate program is designed to produce competent entry-level Intermediates who can service the community with advanced life support care via the EMS infrastructure. Upon completion of the program, students may be eligible to test for state certification in Virginia. Employment opportunities for Intermediate may be available with Ambulance, Fire and Rescue Services, Hospitals, Government Departments, Sales and Humanitarian relief organizations.

Students learn the basic principles of Advanced Medical Life Support Services and focus on the hands-on experience needed to work in Emergency Medical Services. Students completing the program are eligible to take the National Registry certification exam for Intermediates, resulting in a rewarding career in EMS. Completion of this program; however, does NOT allow the student to automatically practice, they must become certified as required by the Virginia Department of Health Office of Emergency Medical Services.

Program Content

Students, while in the classroom, will study:
- EMT- Basic
- Intro to Advanced Life Support
- Basic ECG Recognition
- ALS- Medical
- ALS- Trauma
- EMS Special Populations

Student, while in the Lab, will perform hands on skills to achieve skill competency. A large portion of lab will be scenario based practice through simulation.

Students, while in the clinical and field internships, will gain experience through required time in the:
- Emergency Room
- Operating Room
- Intensive Care Unit
- Labor and Delivery
- Pediatrics
- ALS Medic Unit

Schedule

Students will be in class/lab a minimum of 1 days a week with occasional Saturday requirements. Internships will be scheduled in addition to classroom time and must be at a facility or with an agency approved by DSLCC EMS Program and has a current clinical/ field agreement in place with the college. **AT NO TIME MAY A STUDENT SET UP THEIR OWN INTERNSHIP.**

Total Credits 27

Course Descriptions

**EMS 112 - Emergency Medical Technician-Basic I:** Prepares student for certification as a Virginia and/or National Registry EMT-Basic. Focuses on all aspects of pre-hospital basic life support as defined by the Virginia Office of Emergency Medical Services curriculum for Emergency Medicine Technician Basic.

Lecture 3 hours. Laboratory 2 hours. Total 5 hours per week. 4 credits

**EMS 113 - Emergency Medical Technician-Basic II:** Continues preparation of student for certification as a Virginia and/or National Registry EMT-Basic. Includes all aspects of pre-hospital basic life support as defined by the Virginia Office of Emergency Medical Services curriculum for Emergency Medicine Technician Basic.

Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week. 3 credits

**EMS 120 - Emergency Medical Technician - Basic Clinical:** Observes in a program approved clinical/field setting. Includes topics for both EMS 111 and EMS 113. Dependent upon the program in which the student is participating and is a co-requisite to both EMS 111 and EMS 113.

Lecture 1 hour per week. 1 credit

**EMS 151 - Introduction to Advanced Life Support:** Prepares the student for Virginia Enhanced certification eligibility and begins the sequence for National Registry Intermediate and/or Paramedic certification. Includes the theory and application of the following: foundations, human systems, pharmacology, overview of shock, venous access, airway management, patient assessment, respiratory emergencies, allergic reaction, and assessment based management. Conforms at a minimum to the Virginia Office of Emergency Medical Services curriculum. Co-requisite: EMS 170.

Lecture 3 hours. Laboratory 2 hours. Total 5 hours per week. 4 credits
EMS 153 - Basic ECG Recognition: Focuses on the interpretation of basic electrocardiograms (ECG) and their significance. Includes an overview of anatomy and physiology of the cardiovascular system including structure, function and electrical conduction in the heart. Covers advanced concepts that build on the knowledge and skills of basic dysrhythmia determination and introduction to 12 lead ECG.

Lecture 2 hours per week. 2 credits

EMS 155 - ALS - Medical Care: Continues the Virginia Office of Emergency Medical Services Intermediate and/or Paramedic curricula. Includes ALS pharmacology, drug and fluid administration with emphasis on patient assessment, differential diagnosis and management of multiple medical complaints. Includes, but are not limited to conditions relating to cardiac, diabetic, neurological, non-traumatic abdominal pain, environmental, behavioral, gynecology, and toxicological disease conditions. Prerequisites: Current EMT-B certification and EMS 151 Pre or co-requisite: EMS 153.

Lecture 3 hours. Laboratory 2 hours. Total 5 hours per week. 4 credits

EMS 157 - ALS - Trauma Care: Continues the Virginia Office of Emergency Medical Services Intermediate and/or Paramedic curricula. Utilizes techniques which will allow the student to utilize the assessment findings to formulate a field impression and implement the treatment plan for the trauma patient. Prerequisites: Current EMT-B certification and EMS 151.

Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week. 3 credits

EMS 159 - ALS - Special Populations: Continues the Virginia Office of Emergency Medical Services Intermediate and/or Paramedic curricula. Focuses on the assessment and management of specialty patients including obstetrical, neonates, pediatric, and geriatrics. Prerequisites: EMS 151 and EMS 153. Pre or co-requisite: EMS 155.

Lecture 1 hour. Laboratory 2 hours. Total 3 hours per week. 3 credits

EMS 170 - ALS Internship I: Begins the first in a series of clinical experiences providing supervised direct patient contact in appropriate patient care facilities in and out of hospitals. Includes but not limited to patient care units such as the Emergency Department, Critical Care units, Pediatric, Labor and Delivery, Operating Room, Trauma centers and various advanced life support units.

Laboratory 3-6 hours per week. 1 credit

EMS 172 - ALS Clinical Internship II: Continues with the second in a series of clinical experiences providing supervised direct patient contact in appropriate patient care facilities in and out of hospitals. Includes but not limited to patient care units such as the Emergency Department, Critical Care units, Pediatric, Labor and Delivery, Operating Room and Trauma Centers. Co-requisite: EMS 151.

Laboratory 3-6 hours per week. 1 credit

EMS 173 - ALS Field Internship II: Continues with the second in a series of field experiences providing supervised direct patient care in out-of-hospital advanced life support units.

Laboratory 3 hours per week. 1 credit
Admission Requirements

**Admission to the College** - You must be admitted to DSLCC before you can be considered for admission into the EMS Intermediate Program. Please note: ADMISSION TO THE COLLEGE DOES NOT GUARANTEE ADMISSION TO THE INTERMEDIATE PROGRAM.

**General Admission to DSLCC**
Dabney S. Lancaster Community College welcomes applications from any person who has a high school diploma or the equivalent or who is 18 years of age and is able to benefit from a program at the College. Students younger than age 18 may be admitted by special arrangement or through the Dual Enrollment program.

**How to Apply**
The following procedures apply to all degree or certificate seeking students. Please contact Student Services if additional information is needed. Submit a completed Application for Admission, including completed state residency information. The application is available on the web at www.dslcc.edu. Forward official transcripts from all high schools, colleges and universities attended. High school transcripts may not be required if the record is over ten years old or the student has completed twenty semester hours (or the equivalent) at a regionally accredited college or university. Waiver of the high school transcript must be approved by the registrar.

Complete a placement test or provide satisfactory SAT/ACT scores. (For more information, see SAT/ACT Scores section below.) The test is normally administered prior to registration. The DSLCC placement test series may not be required if the student has completed appropriate English and mathematics courses at a regionally accredited college or university. Waiver of the placement test must be approved by a Student Services advisor.

After individuals have been admitted to the College as degree or certificate seeking students, they will meet with a College advisor (a) to discuss their educational interests, (b) to plan their application for admission to a specific curriculum or program at the College and (c) to schedule courses based on placement test scores. Admitted applicants may be required to submit additional information required by the College for admission to a specific program or curriculum. For all non-degree or non-certificate seeking students (those who are taking classes which they do not intend to apply toward a degree or certificate), the following completed items are required:

1. An official Application for Admission
2. A state residency form, if the course(s) to be taken are for college credit

NOTE: Placement tests may be required prior to enrolling in some courses. Check with an advisor in Student Services for more information

**Admission to a Curriculum**
In addition to the general admission requirements, specific requirements are usually prescribed for each curriculum of the College in order to ensure that the student possesses the potential to meet program requirements. Admission to the College does not necessarily admit the student to a particular curriculum. Among the items generally considered in determining the eligibility of a student for admission to a
curriculum in the College are educational and occupational experiences and other reasonable standards such as appropriate scores on the placement test. The specific requirements for each curriculum are listed in the Programs of Study section of this catalog. Persons who do not initially meet the requirements for a specific curriculum or course may be eligible for entrance at a later time after completing the appropriate developmental studies.

Admission to the EMS Program-Intermediate

Graduation from High School or Earning a GED Certificate - Students must have either graduated from high school or have earned their GED.

Transcripts - You must provide transcripts from your high school and from any other college(s) that you have attended. Contact these schools and ask that an official copy of your transcript be sent to: Dabney S. Lancaster Community College, ATTN: EMS Program, 1000 Dabney Drive Clifton Forge, VA 24422

Entrance Exam – Upon completion of all academic placement testing and remedial requirements an EMS entrance exam is administered to all applicants. Applicant must achieve a score of 70% or higher in order to be considered for admission into the program.

Health Form - Once you have met other admission requirements for the intermediate program, you will need to complete a health assessment. It will include immunization requirements. The PPD (TB test), flu shot and drug screen are required yearly. A drug screen may be required randomly at anytime during the school year.

Urine Drug Screen - Once the applicant has received contingent admission to the intermediate program the urine drug screen must be completed. The cost of this test is the responsibility of the applicant.

Criminal Background Check - After contingent admission has been granted you must pass a criminal background check. The cost of this is the responsibility of the applicant. Individual agencies may require additional background checks.

CPR – Each student is required to provide proof of current Cardiopulmonary Resuscitation (CPR) certification in the areas of Basic Life Support (BLS) and Automatic External Defibrillator (AED) for the Professional.

AGE – Students must be a minimum age of 18 to be eligible to be a student in an ALS program.
Information for Program Applicants

In order to be accepted into the EMS Program the following criteria must be met:

1. Completion of DSLCC application and placement testing.

2. The completed application and all related materials must be returned prior to the stated deadline.

3. The applicant must take the required pre-entrance examination which is scheduled with the EMS Program Coordinator. Applicants need to bring a photo ID (driver’s license) the day of the exam. Applicants must achieve a score of 70% or higher in order to be considered for admission.

4. Applicants who qualify by scoring 70% or higher will be contacted for a panel interview. Please be sure you have a current daytime phone number or email address (email preferred) on file. Applicants who cannot be contacted (for whatever reason), or, fail to keep the interview appointment, will not be considered for the program.

5. After all interviews are completed, the application materials will be reviewed and contingent admission will be granted.

6. Final acceptance is based on the applicant passing the Health Assessment Screening, including current immunizations. Completion of the PPD and passing the Urine Drug Screen and the Criminal Background Check.

7. It is the applicant’s responsibility to have the health screenings and to follow up with their own primary care physician (at the applicant’s expense) if needed. Applicants are expected to provide proof of current immunizations and PPD. Applicants must be able to perform the “Essential Functional Abilities” skills that are in the application packet. The applicant is responsible for paying for the required urine-drug screening test (approximately $50.00). Failure to pass the health screening and/or drug test will result in denial of admission to the EMS Program. Failure to submit to the drug test will result in denial of admission to the EMS Program.

8. The last step in the process is the performance of the Criminal Background Check which is a requirement of the Virginia State Board of Health-Office of Emergency Medical Services in order for students to participate in clinicals in a hospital or nursing home. The cost is approximately $50.00. Applicants who have a criminal background check that would result in their not being eligible to be employed as a health care worker, will be denied admission into the EMS Program. See the information in this packet pertaining to Virginia Office of Emergency Medical Services Regulations section 12 VAC 5-31-1460, ALS student enrollment requirements.
Applicants will be notified by regular mail of their final acceptance into the EMS Intermediate Program. The letter will include a “Letter of Intent” that the applicant must sign and return. Tuition and fees must be paid by the deadlines set by DSLCC.

The Dabney S. Lancaster Community EMS Program will not discriminate in its admission policies on the basis of sex, race, national origin, color, creed, disabling conditions, handicaps, age, religion or sexual preference. All candidates must meet minimum requirements and provide documentation prior to entry into an Advanced Life Support program.

All candidates applying for entrance into DSLCC Intermediate Program must meet the minimum requirements specified in the Virginia Emergency Medical Services Regulations section 12 VAC 5-31-1460, ALS student enrollment requirements. For entrance into the Intermediate program,

1. The candidate must hold current certification in CPR.
2. The candidate shall be an active member, in good standing, of an EMS agency.
3. The candidate must hold current certification as a Virginia or National Registry EMT-Basic or EMT- Enhanced for bridge program.

**Health Care Provider Statement**

All students are required to submit a Personal Health Assessment. The document is to be completed by the student and their health care provider. All documents must be legible and dated in order to be accepted. Immunization records may be submitted in the absence of the signature of a health care provider if a copy of the medical record documenting each immunization, procedure or titer is attached to the form. *Students who do not provide a Personal Health History form will not be permitted to participate in clinical or laboratory sessions until the information has been provided.*

**REQUIRED IMMUNIZATIONS AND MEDICAL RECORDS**

Documentation of all immunizations must be submitted to the program coordinator on a date specified prior to the beginning of laboratory sessions.

1. Proof of immunization or results of rubella (German measles) titer.
2. Proof of immunization or results of mumps titer.
3. Proof of immunization or results of rubeola (measles) titer.
4. Proof of immunization or results of varicella titer, if there is no history of chicken pox. (If you have had chicken pox, turn in a signed statement specifying such).
5. Results of 2 step PPD.
6. Results of chest xray if PPD is positive.
7. Hepatitis B vaccine status.

Most immunizations are offered at no charge through local health departments. Call the Health Department in the County in which you reside, or call your private physician for information.
STATE BOARD OF HEALTH – VIRGINIA EMERGENCY MEDICAL SERVICES REGULATIONS – Article 4, 12 VAC 531900
General Requirements.
EMS personnel shall meet and maintain compliance with the following general requirements:

1. Be clean and neat in appearance;
2. Be proficient in reading, writing and speaking the English language in order to clearly communicate with a patient, family or bystander to determine a chief complaint, nature of illness, mechanism of injury and/or assess signs and symptoms.
3. Have no physical or mental impairment that would render him unable to perform all practical skills required for that level of training. (Physical and mental performance skills include the ability of the individual to function and involve exposure to a communicable disease, hazardous chemical or other risk of serious injury.)

12 VAC 5-31-910
Criminal or enforcement history
EMS personnel shall meet and maintain compliance with the following general requirements:

1. Has never been convicted or found guilty of any crime involving sexual misconduct where the lack of affirmative consent by the victim is an element of the crime, such as forcible rape.
2. Has never been convicted of a felony involving the sexual or physical abuse of children, the elderly or the infirm, such as sexual misconduct with a child, making or distributing child pornography or using a child in a sexual display, incest involving a child, assault on an elderly or infirm person.
3. Has never been convicted or found guilty of any crime (including abuse, neglect, theft from, or financial exploitation) of a person entrusted to his care or protection in which the victim is a patient or is a resident of a health care facility.
4. Has never been convicted or found guilty of any crime involving the use, possession, or distribution of illegal drugs except that the person is eligible for affiliation five years after the date of final release if no additional crimes of this type have been committed during that time.
5. Has never been convicted or found guilty of any other act that is a felony except that the felon is eligible for affiliation five years after the date of final release if no additional felonies have been committed during that time.
6. Is not currently under any disciplinary or enforcement action from another state EMS office or other recognized state or national healthcare provider licensing or certifying body. Personnel subject to these disciplinary or enforcement actions may be eligible for certification provided there have been no further disciplinary or enforcement actions for five years prior to application for certification in Virginia.
7. Has never been subject to a permanent revocation of license or certification by another state EMS office or other recognized state or national healthcare provider licensing or certifying body.
12 VAC 5-31-1460
ALS student enrollment requirements

An enrolled student in an ALS certification program (EMT-Enhanced, EMT-Intermediate, EMT-Paramedic) must comply with the following:

1. Be proficient in reading, writing and speaking the English language in order to clearly communicate with a patient, family or bystander to determine a chief complaint, nature of illness, mechanism of injury or to assess signs and symptoms.

2. Be a minimum of 18 years of age at the beginning date of the certification program.

3. Hold current certification as an EMT or higher EMS certification level.

4. Hold, at a minimum, a high school or general equivalency diploma.

5. Have no physical or mental impairment that would render him unable to perform all practical skills required for that level of training. Physical performance skills must include the ability of the student to function and communicate independently, to perform appropriate patient care, physical assessments and treatments without the need for an assistant.

6. Not have been convicted or found guilty of any crime, offense or regulatory violation, or participated in any other prohibited conduct identified in these regulations.

7. Meet requirements for course enrollment as set by the regional EMS council or local EMS resource, the PCD or the course coordinator, approved by the Office of EMS.

Physical Examination Guidelines

After the applicant has been notified of “contingent admission” to the EMS Intermediate Program, a physical examination must be completed at the site of your choice and at your own expense.

You will also need to have a PPD (tuberculosis) skin test. In the event that your PPD is positive, or, if you have had a positive test in the past, you will need to have a chest x-ray. If you have been PPD positive in the past and have had a chest x-ray within the past five years, please bring the Director a copy of the x-ray or the report from the x-ray. You must provide proof of current immunization status. Any update of immunizations is the responsibility of the applicant. You will also need to have a urine drug screen. Refusal to submit to the urine drug screen will result in not being accepted into the intermediate program.

You will be offered information regarding the Hepatitis B vaccine series. If you have already received a hepatitis B vaccine in the past, please bring a copy of your record with you. PPD and urine drug screens are mandatory. The Hepatitis B vaccine is not mandatory, but is highly encouraged.
INTRODUCTION
The following is a position description for the Advanced Life Support Provider within Virginia. This document identifies the minimum qualifications, expectations, competencies and tasks expected of the Advanced Life Support Provider.

QUALIFICATIONS FOR STATE CERTIFICATION
To qualify for state certification, the applicant must at a minimum:
1. meet minimum state entry requirements.
2. meet course requirements such as attendance and grades.
3. successfully complete all certification/licensure examination(s).

COMPETENCIES
The Advanced Life Support Provider must demonstrate competency in handling emergencies utilizing basic and advanced life support equipment and skills in accordance with the objectives in the Virginia Standard Curriculum for the EMT-Enhanced or the U.S. Department of Transportation National Standard Curriculum for the EMT-Intermediate or EMT-Paramedic to include having the ability to:

- verbally communicate in person, via telephone and telecommunications using the English language;
- hear spoken information from co-workers, patients, physicians and dispatchers and in sounds common to the emergency scene;
- ability to lift, carry, and balance up to 125 pounds (250 with assistance);
- ability to interpret and respond to written, oral, and diagnostic form instructions;
- ability to use good judgment and remain calm in high-stress situations and take on the role of a leader.
- read road maps; drive vehicle, accurately discern street signs and address numbers;
- read medication/prescription labels and directions for usage in quick, accurate, and expedient manner;
- communicate verbally with patients and significant others in diverse cultural and age groups to interview patient, family members, and bystanders;
- discern deviations/changes in eye/skin coloration due to patient’s condition and to the treatment given;
- document, in writing, all relevant information in prescribed format in light of legal ramifications of such;
- perform with good manual dexterity all tasks related to advanced emergency patient care and documentation;
- bend, stoop, balance, and crawl on uneven terrain;
- withstand varied environmental conditions such as extreme heat, cold, and moisture;
- perform quickly, precise, practical mathematical calculations pertinent to ratio and proportion of medication and supplies used in emergency patient care.
DESCRIPTION OF TASKS
The Advanced Life Support Provider must:

- be independent, confident, able to work independently without defined structure, have good stable reasoning ability with ability to draw valid conclusions expediently relevant to patient’s condition, often, using limited information;
- have knowledge and skills relevant to position and be able to implement them in stressful situations;
- be cognizant of all legal, ethical, and moral obligations inherent within scope of practice;
- be able to perform mathematical calculations/ratios and apply them in expedient, practical manner;
- have successfully completed an approved curriculum with achievement of passing scores on written and practical certification examinations as defined by programmatic guidelines;
- and at any given time, performs any or all tasks performed by a lower level EMT;
- may supervise activities of students or interns, and/or may engage in writing of journal articles or teach. Meets qualifications within the functional job analysis;
- meet minimum vision requirements to operate a motor vehicle within the state.

PRE-ADMISSION EXAMINATION

- The required pre-admission examination for admission to the EMS Intermediate Program will be offered three days April 4, 5 & 7, 2015.
- Only three examinations are given each year, so it is mandatory that you be present on one of them if you wish to be considered for June 2015 admission.
- No one will be admitted to the room after the exam begins.
- Applicant will have two (2) hours to complete the exam and must obtain a score of 70% or higher on the exam to be considered for admission into the program.
- On the day of the exam, applicant will need to bring a picture ID (driver’s license), and several sharpened #2 pencils. You may not use books, notes, or calculators during the exam and no cell phones are allowed in the testing room.
- Prior to taking the exam, applicant’s completed application, transcript, and references must be on file with the EMS Program Office. Deadline is Friday April 1, 2016 by 5 p.m.
There will be no exceptions to these requirements. In the case of inclement weather, natural disaster or other emergency, please listen to the local radio station for announcements regarding cancellation of the exam or check the college website.

If you have any questions, please call the EMS Program Office at 540-863-2832.
