This is the first time the Annual State Board meeting and the Chancellor’s Retreat were combined. Mr. Douty gave the Board a summary of the meeting.

b. Joint Board/Educational Foundation Dinner – Mr. Steve Douty gave the Board a report on the joint dinner. He pointed out that there was a flyer in their packets for The Lancaster Society, the planned giving society of the College.

4. PRESIDENT'S REPORT

a. Enrollment Update – Currently, enrollment is up two FTE’s, less than one percent, over last year at this time. The College is one of six colleges in the VCCS up in FTE’s this fall.

Dr. Rainone reported on the enrollment of the two new programs that started this fall. The Electrical and Instrumentation Technology has 14 students and Sustainable Agriculture has 12 students.

b. Major Gifts Campaign Update – The Board has a summary sheet in their packet on the Major Gifts Campaign. The gifts are currently at 2.8 million dollars with many gifts pending. The total with the pending gifts is approximately 3.2 million dollars. After the first of the year, the Campaign will focus on the community. A mailing of 6,000 newsletters will be mailed to the community the first week of January 2016.

The target date for the soft ending of the campaign is April 30. Pledges and gifts will be collected through June 30. A campaign celebration will be held in late May or early June.

c. VCCS Initiative: Workforce Credentials – The Board has a booklet on Workforce Credentials: The Pathway to Virginia’s New Middle Class. The VCCS six-year goal is to triple credentials offered and earned by individuals in the Commonwealth at the 23 community colleges. There are 1.5 million jobs that will need to be filled between now and 2022. Approximately 50 – 65 percent of these jobs will require a credential or skill other than a 4-year degree. Employers are looking for employees who can demonstrate skills through national standardized credentials and certifications.
Virginia's funding formula does not allow state dollars for short-term training. The Governor will announce a new budget on Thursday, December 17, 2015. It is hoped 20 - 25 million dollars will be budgeted to expand non-credit, workforce credentials in the State. If the funding is allocated, the colleges will receive funding according to the credentials they produce.

d. **VCCS Student Success Leadership Institute** – The VCCS is committed to creating a pathway approach to making informed decisions related to enrollment, retention, progression and completion. Each college had a team of five people that attended the VCCS Student Success Leadership Institute. The presidents were also invited.

The Student Success Leadership Institute is designed to train employees to evaluate student pathways to identify barriers to progression and intervention. The first Student Success Leadership Institute was held in November, a second will be held in February and the final session in April. Those attending the sessions will train other employees on campus.
